

Directions: Murcia International airport to Valle del Este

Leave the airport following signs to Cartagena. After a couple of smallish roundabouts and 2 Km or so on the RM16 branch of right to the RM17 (also direction Cartagena). In another 2 Km or so filter onto the A30.

Continue on the A30 for 14 Km (or so) until there are signs off for the AP-7: Vera & Almería,

Continue along the AP7 to its end where it joins the A7. Leave at the next junction (529) and follow web site guidance.

(Note: on the way back the signposts for the airport are there, but not very obvious. The important thing is to leave the AP7 onto A30 – or RM2)
